**Letter of Reference: "INTEGRAL INZINJERING" P.O. Laktasi**

World Vision concluded in March 1999 a contract with the company "Integral Inzinjering" from Laktasi for the reconstruction of 37 houses in Mehovci and Basici, Municipality Celinac. The project was part of an overall return project financed by the Commission of the European Community. The works were completed by July 1999 in accordance with the mutual agreement.

The contract encompassed the supply of all needed materials and delivery on the site as well as performing all required works. Prior to commencing the reconstruction works "Integral Inzinjering" had to upgrade the damaged access roads to both villages.

During the performance of the works has shown that it has the capacity for the type of such projects at its disposal.

Furthermore, "Integral Inzinjering" has proved its understanding for terms of contract and a project management procedure set up by an international organisation.

Steffen Mittasch, Dipl.-Ing., M.Sc.  
Senior Reconstruction Manager
